SHAKE IMMEDIATELY BEFORE USE

Application Instructions

Hype-D may be applied to all types of crops including but not limited to: Corn, Soybeans, Wheat, and Cotton as a foliar application at a rate of 1 gallon per acre. Applications may be made at crop emergence and every 10 to 14 days throughout the growing season, as needed. Use sufficient carrier to adequately cover crop foliage. **Caution:** Plant and leaf injury may occur on some crops when certain weather and growing conditions are present.

Compatibility

Hype is compatible with most common foliar liquid nutrients and micronutrients; however, USER ASSUMES FULL RESPONSIBILITY to ensure compatibility when tank mixing with other products.

Do not mix with other components without a compatibility test. An adequate test for compatibility involves mixing in a small container the proper proportions of the product with water and the other ingredients.

Conditions of Sale

Seller warrants this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions and use. No one other than an officer of the seller is authorized to make any warranty, guarantee, or direction concerning this product. Because time, place, rate of application and other conditions of use are beyond the seller's control, the seller's liability from handling, storage, and use of this product is limited to replacement of the product or a refund of the purchase price.
