

WINTER STORAGE PRECAUTIONS

Proper storage of nutritional products is essential to maintain the shelf life of the products and to ensure their best performance. Cold temperatures present a special set of challenges to the integrity of these products. Some liquid nutritional products can crystalize, separate, or fall out of suspension.

It is critical that these products be kept from freezing over the winter months.

Please see the following storage temperature chart for Innova Performance products. **Remember, any liquid nutritional product that is stored over winter regardless of how it was stored should be thoroughly shaken or recirculated before use.**

Product	Estimated Product Weight LB. / Gal.	Minimum Storage Temperature
Agra-Rouse™	8.4	Can freeze, will thaw
Argosy® RF	8.4	Above 32° F
BackSpin™ X	11.3	Above 32° F
BackSpin™	11.3	Above 32° F
Chrome®	9.7	Above 32° F
Chrome® Flex	10.5	Above 32° F
Chrome® SR	9.67	Above 32° F
Hype®	9.6	Above 32° F
Hype X®	9.4	Above 32° F
Hype®-D	9.6	Above 32° F
Incite™	8.4	Can freeze, will thaw
KaPre® Embella	8.6	Above 32° F
KaPre® ExAlt	9.3	Above 32° F
KaPre® Impact	9.5	Above 32° F
KaPre® Kelp Plus	8.5	Above 32° F
KaPre® PhoNix	10.6	Can freeze, will thaw
KaPre® Spectra	9.3	Above 32° F
KaPre® Spectra OC	9.6	Above 32° F
Kelpene® GPX	8.7	Above 32° F
Kelpene® CSW	8.7	Above 32° F
Kelpene® Ca	9.1	Above 32° F
Krystal Klear® Agra Mix II	10.7	Can freeze, will thaw
Krystal Klear® Agra Mix III	10.7	Can freeze, will thaw

Product	Estimated Product Weight LB. / Gal.	Minimum Storage Temperature
Krystal Klear® B	9.6	Above 32° F
Krystal Klear® Ca	10.8	Can freeze, will thaw
Krystal Klear® Crop Mix II	10.3	Can freeze, will thaw
Krystal Klear® Cu	10.2	Can freeze, will thaw
Krystal Klear® Fe	10.6	Can freeze, will thaw
Krystal Klear® Mg	10.7	Can freeze, will thaw
Krystal Klear® Mn	10.8	Can freeze, will thaw
Krystal Klear® Zn	11	Can freeze, will thaw
LidoQuest® Mn	10	Can freeze, will thaw
LidoQuest® Zn	10.6	Can freeze, will thaw
n-tro®	11.1	Above 32° F
n-tro® Plus	11.1	Above 32° F
Prudent® 40PLUS	11.7	Above 40° F
Prudent® 42CW	11.5	Above 45° F
Prudent® RX	9	Can freeze, will thaw
Trifecta®	11.2	Above 32° F
TritoN™	10.45	Above 32° F

TIPS TO REMEMBER

- Any liquid nutritional product that is stored over winter regardless of how it was stored should be thoroughly shaken or recirculated.
- For bulk product storage over 1000 gallons, please consult your Innova representative for proper storage guidelines.
