4AMS 4L

Industry-Leading Liquid AMS

A high-load liquid AMS for faster loading and easier handling.

- AMS-based water conditioner with 4.0 lbs AMS per gallon in a convenient liquid form
- Reduces hard-water antagonism with glypho-sate, glufosinate, and other susceptible active ingredients
- Improves performance and consistency across variable water sources
- Easier handling compared to dry AMS

GENERAL INFORMATION

Suvon 4L provides 4.0 lbs of ammonium sulfate per gallon in a convenient liquid form.

AMS supplies ammonium ions that favor uptake for several systemic herbicides and provides sulfate to tie up hard-water cations that otherwise impact the efficacy of active ingredients in the tank.

Use **Suvon 4L** wherever AMS is recommended for water conditioning.

USE RATE AND PACKAGING

	Use Rate: 2-4 qt/ac*
	Weight/Gallon: 10.2 lbs/gal
	Package Sizes: 270 gal totes; Bulk quantities

*** Refer to the product label for more specific rate information.**
