700

Water Conditioner without AMS

PRINCIPAL FUNCTIONING AGENTS

Phosphatidylcholine, methylacetic acid and alkyl polyoxyethylene	80%
Constituents Ineffective as Spray Adjuvant	20%
Total	100%

KEEP OUT OF REACH OF CHILDREN

WARNING

GHS HAZARDS AND PRECAUTIONS

May be harmful if swallowed. May causes an allergic skin reaction. Causes eye irritation. May be harmful if inhaled. Keep out of reach of children. Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing dust/fumes/gas/mist/vapors/spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.

FIRST AID

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists, get medical advice or attention.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice if you feel unwell.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

Suvon 700 is a non-ionic, low foaming penetrant and may be used to enhance the activity and effectiveness of agricultural and industrial chemicals.

Suvon 700 provides more uniform coverage of spray solutions and aids in penetration. It may be used to acidify (lower pH) spray solutions thus preventing alkaline hydrolysis.

Suvon 700 improves deposition and retards drift by producing a more uniform spray pattern. The degree of drift hazard varies with the type of pesticide and application conditions.

Suvon 700 will help control, but not eliminate, drift and is compatible with most pesticide formulations including water-soluble, flowable and wettable powders. For tank mix compatibility concerns, conduct a jar test of the proposed mixture to ensure compatibility of all components. Mix components in the same ratio as the proposed tank mix. Application may be made by ground or air.

DIRECTIONS FOR USE

Suvon 700 may be used on a wide variety of crops including fruits, vegetables, row crops, tree nut crops, citrus, small grains, forage crops, vine crops, turf or in non-crop sites, aquatic (including wetlands), forestry (site preparation and release), industrial (storage areas, plant sites, and other similar areas including governmental and private lands), grasslands (including pastures, rangeland and fence rows), rights-of-way (utility, railroad and roadsides), turf (golf courses, parks, and sod farms), and ornamentals (container, field or greenhouse). The pesticide manufacturer's label should be consulted regarding specific adjuvant use recommendations and that rate should be used. **Do not exceed 5% by volume of finished spray mix unless specified on the pesticide label.**

ACIDIFYING AGENT: Highly alkaline water (pH 8 or higher): 8 to 16 ounces per 100 gallons of spray mixture. Mildly alkaline/acid water (pH 6.5 to 8): 4 to 8 ounces per 100 gallons of spray mixture. **NOTE:** Suvon 700 is an acidifier and may be physically or chemically incompatible with alkaline spray materials.

GENERAL USE: Herbicides (terrestrial or aquatic), Defoliants, Desiccants: 1 to 4 pints per 100 gallons of spray mixture when used as a penetrant. 12 ounces to 2 pints per acre when used in place of crop oil concentrates. **Insecticides, Fungicides, Acaricides, Plant Growth Regulators, Foliar Nutrients:** ½ to 2 pints per 100 gallons of spray mixture. **Drift Reduction:** 1 to 2 quarts per 100 gallons of spray mixture. **Non Crop Sites:** 1 to 8 pints per 100 gallons (1 to 6 fluid ounces per 5 gallons) of spray mixture. **Turf and Ornamentals:** 1 to 4 pints per 100 gallons (1 to 3 fluid ounces per 5 gallons) of spray mixture. Not all ornamentals have been tested. Test small representative sample plot before wide scale application is made.

STORAGE AND DISPOSAL INFORMATION

STORAGE: Store in a cool well-ventilated place. Keep in original container and tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F. If frozen, warm product before use.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC at www.acrecycle.org.

NOTICE OF WARRANTY

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. Seller MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANT-ABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risk of Use: It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of the seller. All such risks shall be assumed by buyer.

Limitations of Remedies: The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at seller's election, one of the following: 1. Refund of purchase price paid by buyer or user for product bought, or 2. Replacement of amount of product used. Seller shall not be liable for losses or damages resulting from handling or use of this product unless Seller is promptly notified of such loss or damage in writing. In no case shall Seller be liable for consequential or incidental damages or losses.

The terms of the "Notice of Warranty" above and this "Limitation of Remedies" cannot be varied by any written or verbal statements or agreements. No employee or sales agent of the seller is authorized to vary or exceed the terms of the "Notice of Warranty" or this "Limitation of Remedies" in any manner.
