ARGOSY® RF

NPE-Free Surfactant

GENERAL INFORMATION

Argosy RF is a rain-fast, soluble, environmentally safe polymer matrix composed of inert ingredients. It encapsulates pesticides keeping them on the leaf even through rain events and irrigation extending extending the life of chemical applications.

When tank mixed, **Argosy RF** enhances wetting and adhesion, as well as facilitates uniform foliar distribution of the pesticide.

Argosy RF is approved for use as an adjuvant with Engenia.®

A rain-fast polymer-based sticker/spreader with drift reduction benefits.

- Enhances the adhesion of spray droplets to the leaf
- Encourages uniform coverage of pesticides across the leaf allowing the active ingredient to be better absorbed by the plant
- Forms heavier, larger drops that reach the target wet and holds applications in place
- Draws ambient moisture from the atmosphere to the leaf
- Ideal for aerial application

USE RATE AND PACKAGING

	Use Rate: 1 pt-1.25 gal/100 gal*
	Weight/Gallon: 8.4 lb/gal
	Package Sizes: 250 gal totes; 2x2.5 gal jugs

*** Refer to the product label for more specific rate information.**
