# COC

## Basic Oil Concentrate

### PRINCIPAL FUNCTIONING AGENTS

| | |
|---|---|
| Paraffin Base Petroleum Oil | 83% |
| Polyol Fatty Acid Esters, Polyethoxylated Derivatives Thereof | 17% |
| Total | 100% |

Ingredients are exempt from tolerance as specified under Title 40, Code of Federal Regulations 180.

### KEEP OUT OF REACH OF CHILDREN

## WARNING

**WARNING:** Contact may cause moderate eye irritation. Avoid contact with eyes, skin or clothing. Wear chemical safety goggles and gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

### FIRST AID

**Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.**

**IF SWALLOWED:** Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

**IF IN EYES:** Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eyes.

### GENERAL INFORMATION

**Suvon COC** is a balanced system of oil and surfactants designed to be used with herbicides and defoliants that call for an oil adjuvant.

**Suvon COC** may be used as a replacement for crop oils and surfactants added to herbicide and defoliant spray programs.

### RECOMMENDED RATES

**USE RATE**: Always follow pesticide manufacturer's label directions. **Suvon COC** is compatible with most oil-soluble herbicides. Check the particular brand labels to be sure that use with a crop oil is not prohibited on the label.

**BRUSH CONTROL:** For weed and brush control foliage sprays, use 1 gallon **Suvon COC** per 100 gallons of finished spray. For increased efficacy in late season sprays, use 2 gallons per 100 gallons.

**AERIAL & GROUND SPRAYS USING 5-50 GALLONS/ACRE:** Use 1 to 2 pints **Suvon COC** per acre in sufficient volume to provide good plant coverage with the equipment used. To increase coverage of mid to late season sprays, add 1 to 2 quarts per acre. Do not exceed 2.5% v/v concentration.

Since **Suvon COC** may increase the activity of herbicides, care should be exercised in applying it with herbicides to new varieties or highly inbred lines or under weather conditions, such as high temperatures and high humidity which tend to increase herbicide activity. The use of test areas is recommended if these conditions prevail. Due to variation in natural water compositions, formulations by brand, and types of agitation, pre-testing of the intended tank mixture is recommended.

### HANDLING AND STORAGE

Store in a cool, dry place in original container. Do not store near oxidizing agents. Keep container closed in storage. Do not allow water to be introduced. If **Suvon COC** is stored below 20°F for an extended period, it may become cloudy and thicken. By raising the temperature above 32 °F the product will return to its normal clear and fluid state.

### WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
