FLEX

Water Conditioner with AMS

An anionic blend of surfactants, water conditioners and pH buffering agents.

- Improves herbicide uptake
- Conditions hard water and prevents pesticide antagonism
- pH modifiers and buffer to optimize tank solution
- Enhanced surfactant blend to improve wetting and spreading

USE RATE AND PACKAGING

	Use Rate: 1.5-5 gal/100 gal*
	Weight/Gallon: 9.175 lbs/gal
	Package Sizes: 270 gal totes; 2x2.5 gal jugs

*** Refer to the product label for more specific rate information.**

GENERAL INFORMATION

Suvon FLEX provides 3.4 lbs of ammonium sulfate per gallon in a convenient liquid form.

Suvon FLEX enhances spray applications and performance by conditioning hard water, optimizing tank solution pH with AMS and improving wetting and spreading.

Suvon FLEX is formulated to work with a wide range of active ingredients.

Suvon FLEX will also improve application and performance of nutritional and biostimulant products.
