FLEX

Water Conditioner with AMS

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of ammonium sulfate, hydroxyalkyl acids, phosphated alcohol alkoxylates, alcohol alkoxylates, polyalkoxylated alkylamines, and glycols ...100%

Ingredients are exempt from tolerance as specified under Title 40, Code of Federal Regulations 180.

DANGER! MAY BE CORROSIVE TO METALS. MAY BE HARMFUL IF SWALLOWED. CAUSES SEVERE SKIN BURNS AND EYE DAMAGE. KEEP OUT OF REACH OF CHILDREN.

PRECAUTIONARY INFORMATION

Read label before use. Do not handle until all safety precautions have been read and understood. May be harmful if swallowed or inhaled. Keep container tightly closed. Keep only in original container. Do not breathe mists. Wash skin and clothing thoroughly after handling. Wear protective gloves/eye protection/face protection. See Safety Data Sheet for further details regarding safe use of this product.

FIRST AID

IF SWALLOWED: Call a doctor or poison control center immediately. Have person sip a glass of water if able to swallow. Rinse mouth. Do NOT induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call poison control center or doctor for treatment advice.

IF ON SKIN OR HAIR: Remove immediately all contaminated clothing. Rinse skin immediately with plenty of water/shower for 15-20 minutes. Wash contaminated clothing before reuse. If irritation occurs, get medical advice/attention.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial resuscitation. Call a poison control center or doctor for further treatment advice.

GENERAL INFORMATION

Suvon FLEX provides 3.4 lbs of ammonium sulfate per gallon in a convenient liquid form.

Suvon FLEX enhances spray applications and performance by conditioning hard water, optimizing tank solution pH with AMS and improving wetting and spreading.

Formulated to work with a wide range of active ingredients.

Suvon FLEX will also improve application and performance of nutritional and biostimulant products.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING.

The addition of **Suvon FLEX** to various combinations of pesticides and/or fertilizers can potentially induce a phytotoxic response in the foliage or fruit of susceptible vegetation, including crops and non-target vegetation. Before adding **Suvon FLEX** to a given spray mix, users and applicators must conduct a phytotoxicity evaluation and/or have experience with the intended spray combination. **Suvon FLEX** may be applied via ground or aerial spray methods. For most uses, avoid runoff by using only enough **Suvon FLEX** to enable adequate spray deposition and wetting on target leaf surfaces.

USE RATE: Read and follow all pesticide labels when determining proper Suvon Flex use rate. Use Suvon Flex at 1 to 4 qts per 100 gallons of spray mix or 0.25 to 1% v/v. Use a minimum of 2 qts per 100 gallons to achieve wetting, spreading and penetration. Apply at the high end of the use rate range for tough to control weeds or when environmental conditions cause plant stress, such as with high heat and low humidity. Additional AMS may be required to treat hard water or for applications of glufosinate herbicides. Do NOT add **Suvon FLEX** at a level beyond 5% v/v of the final spray volume.

MIXING INSTRUCTIONS: Read and follow all pesticide labels when determining mixing order and procedure. Unless otherwise directed by specific pesticide labels, add **Suvon Flex** last to the spray mix and continue agitation. **DO NOT add Suvon FLEX directly to undiluted pesticides.**

STORAGE AND DISPOSAL

Store locked up. Store in a dry and well-ventilated place. Keep cool. Store in a corrosive resistant container with a resistant inner liner. Store product in original container. Do not store near heat or open flame. Do not reuse container. Do not contaminate water, food or feed by storage or disposal. Keep packaging closed, securely fastened and upright. Store between 0°F and 100°F. Dispose of contents/container in accordance with all applicable regulations. Triple rinse (or equivalent) prior to disposal. Add rinsate to spray tank. Offer container for recycling or dispose of properly according to state and local authorities. If burned, stay out of smoke.

CONDITIONS OF SALE AND LIMITATIONS OF WARRANTY AND LIABILITY

Acceptance of Terms: By purchase or use of this product, buyer and user accept these conditions of sale and limitations of warranty and liability. If these terms are unacceptable, return the product unopened for a refund.

Warranty Disclaimers: Manufacturer and seller (collectively "Vendors") warrant that this product conforms to the chemical description on the label. THIS PRODUCT IS SOLD "AS IS" AND VENDORS MAKE NO OTHER WARRANTY, EXPRESS OR IMPLIED, AND SPECIFICALLY DISCLAIM THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT.

Inherent Risks: The directions for use must be followed carefully. It is impossible to eliminate all risks associated with this product. Crop injury, ineffectiveness, or other unintended consequences may result due to factors beyond the control of Vendors. Buyer and user assume all risks associated with the use or handling of this product.

Limitations of Liability: To the extent consistent with applicable law, buyer or user's exclusive remedy for any and all claims, losses, injuries, or damages resulting from the use or handling of this product shall be limited to the purchase price paid, or at the election of Vendors, the replacement of this product. Vendors are not liable for any consequential, incidental, or special damages, including lost profits.
