SUVON
PREMIUM ADJUVANTS

HOT-PAK

Sufactant with UAN

A blend of surfactants, deposition agents and activators that is effective with sulfonylurea based herbicide products.

Also serves as a deposition enhancement and an alternative to traditional methylated seed oil and crop oil concentrate adjuvants.

- A low-foam formulation that is compatible with most pesticides and liquid fertilizers and is easy to use with all spray nozzles
- Replaces nitrogen, oil concentrates and non-ionic surfactants
- Reduces evaporation and spray droplet bounce
- Improves coverage of low-volume applications

GENERAL INFORMATION

Suvon HOT-PAK increases absorption and uptake of water soluble herbicides and is compatible with most pesticides and liquid fertilizers.

Suvon HOT-PAK provides equivalent or superior efficacy enhancement with improved crop safety.

Suvon HOT-PAK enhances absorption of water-soluble herbicides.

Approved for use with Artillery™ WSP.

USE RATE AND PACKAGING

	Use Rate: 3-12.8 oz/ac*
	Weight/Gallon: 9.85 lbs/gal
	Package Sizes: 270 gal totes; 2x2.5 gal jugs

*** Refer to the product label for more specific rate information.**
